The conference of the representatives of the central organs of the Ukrainian political unions and organizations (VO UWR, ZP UGVF, SGD, USP, OUN, Zch OUN, UNDS, URNP - both parties, UNDO, SZSU, SUKTS), after they exchanged their views about the present situation of the Ukrainian liberating policy, passed the following resolution:

I. The conference asserts that the activity of the American Committee under the leadership of Admiral Kirk as well as its European representation continues to support the sovereign tendencies of Russian emigrants. All the Russian emigrants' organisations deny the right of non-Russian peoples to restore the independence of their states, occupied by the Moscow-Bolshevik aggression, and in this way they in fact support the imperialistic politics of Kremlin. Maintaining the official name of the Committee in the future (American Committee for the Liberation of the Peoples of Russia), ^{the} attempts to attract the representatives of the non-Russian peoples of the USSR to the participation at an organization common with Russians and the whole system of the behaviour of private American circles clearly indicate the tendency to reduce the problems of Non-Russian USSR peoples to the domain of the inner questions of Russia and unveil the plans of supporting the "united, indivisible Russia" even after the downfall of Bolsheviks. Russian peoples of the USSR have already won in the bloody struggle against the Russian Bolshevism, that means, the formal independence of the Union republics with the right to abandon their membership of USSR, the representation at the United Nations etc.

2. In connection with the problem of the self-determination of peoples, put forward by the American Committee under the guidance of Admiral Kirk, we must emphasize that the Ukrainian liberating struggle has been fought under the slogan of restoration of the Ukrainian united state, proclaimed 35 years ago by general will, and not under the slogan of fighting for the rights of self-determination. This last slogan would be a regress, from the point of view of our national interests, as the Ukrainian people had already passed the stage of self-determination.

3. The establishment of the radio station for broadcasting to USSR peoples has been planned in this way that the propaganda of "united, indivisible Russia" is carried out in the languages of non-Russian peoples. Broadcasting in the name of the common general radio-committee and under its guidance corrects the expression of the "decision beforehand" of the problem of USSR peoples into the creation of the united Russian empire. This would only do harm to the cause of liberating struggle against Bolshevism. For this reason our conference considers that we should declare against the position taken by the American Committee considering broadcasting and call the whole Ukrainian community to follow us. Some private persons standing out of the common Ukrainian front, will be considered as not belonging

to the circles of the Ukrainian community (circles of Ukrainian citizens).

4. The conference wishes a mutual contact and mutual information among all Ukrainian political organizations and unions when the activity developed by the Russian organizations and the positions taken by the American committee are considered.

5. The conference considers the disunity of the Ukrainians in public life to be harmful and summons all the Ukrainians for the unification in public and political life.

7. Confirming the necessity of coordination at the national cause of all Ukrainian state-political powers, the conference considers the calling of general meetings in future to be an expedient and useful thing.
